

Ian Clowes

Government Stakeholder Lead, AFWERX, a technology directorate of the
Air Force Research Laboratory (AFRL)

Ian Clowes does capability development and stakeholder engagement at AFWERX, the Air Force's acquisition innovation organization. In that role he has done budgeting, project management, cost-benefit analysis, and outreach to help bring cutting edge capabilities to the warfighter. Prior to AFWERX, Ian worked at what is now Air Force Futures in the innovative solutions and disruptive technology division, scouting and scanning across industry and academia to find potentially game changing technology for high-end conflict. Ian is a graduate of Yale University and Columbia Business School and is also a Lt Col in the Army Reserve.
