

Captain Shawn Cooper
Innovation Officer
XVIII Airborne Corps Innovation Officer

Shawn Cooper is an active-duty MEDEVAC pilot in the US Army, an FAA helicopter instructor pilot, a part-time humanitarian, and a dog dad (x3). He is currently the Innovation Officer for the XVIII Airborne Corps — the US Army’s contingency response Corps — where he works to match soldier-identified problems with industry, academic, and government partners to find solutions. Shawn has a Master's in Applied and Computational Mathematics from Johns Hopkins University and an undergraduate degree in biology. His greatest accomplishment is rescuing a 6-year-old American citizen trapped in Afghanistan.
